EDUCATION

National University   *Alajuela, Alajuela*
Bachelor Engineering in Information Systems   Coursing: 2020 - Present

National Technical University   *Alajuela, Alajuela*
Bachelor in English as a Foreign Language   2017 - 2020

EXPERIENCE

Data Analyst Intern - Stryker   *July 2023 - Present*
University Internship   San Antonio Business Park, Heredia

Data Lake Project: I am actively contributing to the Data Lake implementation project at Stryker, which aims to centralize and efficiently manage enterprise data. The project's goal is to provide a single source of data for analysis and reporting.

- Developed scripts using PowerShell to create dataflows and datasets relationship matrix using PWB API.

- Collaborated with the support team to integrate governance and procedures.

- Utilized Postman and the Microsoft Power BI API for testing APIs.

- Worked with Power Query and DAX to create test reports in Power BI.

- Created SQL scripts to extract data from the SAP Hana Database.

- Employed Python to integrate the SQL script for data extraction from SAP.

- Operated under the Agile framework.

PROJECTS

Yo Reporto - Municipalidad de Palmares   *April 2022 - June 2023*
Software Developer   Palmares, Alajuela

- Developed web applications using Angular and Laravel.
- Collaborated with the back-end team to integrate OpenStreetMap API and Imgur API.
- Worked with Git and GitHub for version control and collaboration in project development.
- configured a test environment using AWS (EC2 and RDS).
- Optimized test cases using Selenium IDE.
- Configured MySQL as main database for the project.
- Worked under scrum framework.
